

Application No. 10/024,195

**IN THE SPECIFICATION:**

Please substitute the amended paragraph for the pending paragraph on page 33, beginning at line 1 as follows:

A1  
A toner and process for making the toner wherein each combined resin and colorant composite has an average size less than about 15 microns and wherein surface additive particles averaging less than about 50 nanometers in size average greater than two (2) percent of the combined weight of resin and colorant in the toner and wherein the Additive Adhesion Force Distribution percent value after 12 kilojoules of energy is greater than 40 percent.
